1 December 2012

ASET Partners Corporation awarded HUBZone status by SBA

ASET Partners Corporation (ASET), an IT consulting firm, is pleased to announce our acceptance into the HUBZone program. As of November 29, 2012, the SBA has certified ASET as a “**qualified HUBZone small business concern**”.

Enacted into law as part of the Small Business Reauthorization Act of 1997, the Historically Underutilized Business Zones (HUBZone) empowerment contracting program encourages economic development in “HUBZones” through the establishment of contracting preferences. The programs goal is to promote economic development and employment growth in distressed areas by providing access to more federal contracting opportunities.

The HUBZone program, unlike other set aside preferences, serves the community at large - not just a few small business owners. HUBZone certified companies are truly community-oriented and support our local communities by:

- Providing jobs and opportunities in under-served communities
- Expanding the tax base of under-served communities to fund critical services
- Providing an economic thrust in communities where it is most needed

The HUBZone certification, when combined with ASET’s **GSA IT 70 Schedule** and **FAR Regulation 19.1306** (allowing HUBZone sole source opportunities), makes it easier to procure ASET services. In addition, ASET is capable of providing these services under an umbrella of NAICS codes. Should you require our services or have interest in learning more about us, please feel free to contact us.

A
DIFFERENT
APPROACH
TO
SOLUTIONS

HUBZone

Visit us online at www.ASETPartners.com to learn more about our capabilities and clients.

At ASET Partners, we engage our government partners, combining large-business experience with small-business efficiency and ingenuity, deploying optimal resources and expertise to implement the best solutions to our nation's most challenging problems. ASET Partners is more than an IT or management consulting firm, we're a comprehensive Systems Engineering Lifecycle services firm. We provide exemplary engineering and technical services along with management and professional services. ASET tackles problems starting with solution conceptualization to development and implementation through operations and maintenance.

Wrapped around this solutions lifecycle are strategic planning, communications and outreach, as well as, training services to ensure total comprehensive success. Our team also approaches problems from multiple angles, assessing not only the technology components but the political, economic and operational aspects of every project to ensure the best, high-impact solutions for all our clients. Our goal is not only to design, implement and deploy the best solutions for our client's problems, but also to ensure those solutions can be fielded with maximum success and the highest impact.
